

MSU-Northern Bio-Energy Innovation and Testing Center

- Applied research
 - Testing engine enhancement products for Industry and private sector
- Testing resources
 - ATMS BioDiesel Certification Lab
 - Oil Analysis Lab
 - Failure Analysis Lab
 - Emissions Analysis
 - Chassis and Engine Dynamometer
- Training and curriculum development
 - 4 year programs in technical fields – diesel, automotive, and performance testing
 - Development of specific programs for the Bio-Energy industry

Other Competencies

- National and international industry linkages: Caterpillar, Wartsila, Fairbanks Morse, General Electric, Toyota, Ford, Foundation Coal, Kiewit
- Contract training for industry; i.e. Ford MLR, Case New Holland, Toyota, General Electric, Dept. of Transportation, John Deere, Caterpillar
